

Technical Problem-Solving, Experienced Know-How

For more than 32-years R&B Plastics Machinery has developed engineering solutions for improved plastics processing. We're versatile in building single-screw plastics-manufacturing machinery for the extrusion and blow molding markets.

- Customer satisfaction builds our client base across North America.
- R&B serves diverse markets and understands your production issues.
- Plus, we stand behind our equipment with 24/7 service and support.

R&B Plastics' machines are used to produce products with a wide range of applications:

Blow Molded Product Examples

Food/Beverage packaging
Milk/Dairy products
Personal care/Toiletries
Medical/Pharmaceuticals
Motor oil/Lubricants
Household cleaners/Chemicals
Industrial chemicals/Solvents
Automotive/Truck – Exterior & interior parts
Buckets/pails
Lawn & Garden/Agricultural chemicals
Drums, trash cans/Storage containers
Disposable Diapers/Wipes
Marine/Recreational/Sporting goods
Packaging – Diverse applications

Extruded Product Examples

Marine/Boating items
Pallets/Skids
Building/Construction (windows/siding/doors/decking/railings)
Carrying cases/Storage cases
Custom Dunnage
Medical tubing/Disposables
Shower stalls/Spas/Pools
Pipes/Plumbing products
Non-wovens
Sheet and Film products
Industrial pipe/Tubing
Municipal water/Sewer pipes
Appliance parts
Wire & Cable/Electronics

And much more . . .

Count on R&B to solve production issues. Your satisfaction is key: We stand behind our products with 24/7 service and support.

Cut costs, improve efficiencies, reduce waste, boost profits. R&B Plastics is ready to work for you.
